Report on Progress Toward the Ph.D. Degree in Physics

Please complete side one of this progress report and meet with your faculty mentor to discuss your progress in the program. Your faculty mentor must complete side two. Both of you must sign the form before returning it to Anne Takizawa in 372 LeConte no later than Friday, May XX, 20XX.

This side to be completed by the student.

NAME: ___________________________________________ Year Entered: _____________

Proposed Fall Course Schedule:

________________________________________________________________________

________________________________________________________________________

1) Please summarize your progress in your first year in the Physics PhD program. You may comment on coursework, prelims, GSI experience, etc.

2) Have you joined a research group? If yes, who is your new research adviser and when did you start? If you have not joined a research group, please comment about your plans for finding a research group.

3) What are your plans for the summer?
Faculty Mentor's Comments

*This side to be completed by the Faculty Mentor:*

1. Comments on student's progress during the past year.

2. Comments on student's objectives for the next year.

3. Student's reply to comments (if any):
