

The UC Berkeley Physics Department

Berkeley Physics builds upon an unparalleled history of game-changing research, pioneer scientists, and world-class students. Ranked #2 in the world by U.S. News and World Report 2017 and home to more Physics majors than any program in the country, it strives to foster collaboration among some of the world's brightest students and most distinguished professors. The Physics Department is advancing scientific research across the full range of experimental and theoretical physics, including condensed matter physics and materials science, biophysics, nuclear physics, and more.

Introducing Berkeley Physics Partners (BP²)

- **Partner with us** on the Physics research and education agenda
- **Stay current** on cutting edge research and potential disruptive technologies
- Increase your **brand recognition** with students
- **Recruit** top talent

BP²: Recruit and BP²: Access

Two new ways for industry partners to collaborate with students and faculty in one of the world's most innovative Physics programs

BP²: Recruit

Berkeley Physics offers a Bachelor program and a PhD program with an optional Masters degree. Our industry partners in BP²: Recruit receive a rich set of benefits advancing their professional goals and those of our students.

First and foremost, companies can host two on-campus recruiting sessions per year in Le Conte and Birge halls. These convenient and well-attended sessions allow you to reach a wide range of students. BP²: Recruit members may also conduct on-campus interviews and office hours in academic buildings. Catch students on their way to or from class—no special trips required.

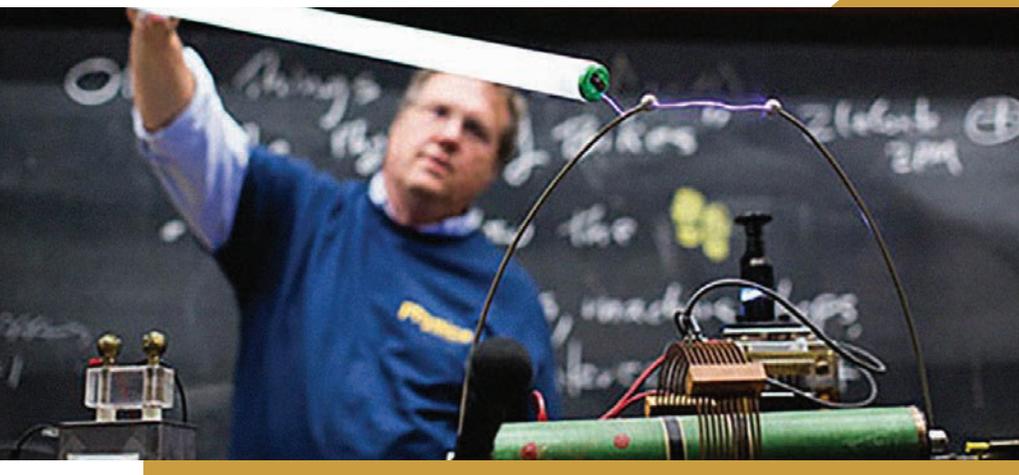

Plus: Alert Physics students to job announcements and internship openings via email. Engage with faculty advisers and student groups at the Fall graduate and Spring undergraduate poster sessions. And partner with our active student organizations.

Detailed Member Benefits

- On-campus **recruiting info sessions**
- **Job/internship** announcements
- On-campus **interviews** and **office hours**
- Invitations to Fall graduate and Spring undergraduate **poster sessions**
- Invitation to **speak** at the Physics Career Development Workshops
- Invitations to attend other **special events** in Physics

BP²: Recruit Annual Membership Fees

Company Size	Fee
More than 200 employees	\$15,000
Between 50-200 employees	\$7,500
Fewer than 50 employees	\$2,500

BP²: Access

Physics at Berkeley is home to faculty who contribute scientific discovery through cutting-edge research, all while teaching the next generation of physicists. We invite you to invest in the future of our Physics Department, one of the best in the world. Your support funds strategic priorities like hands-on learning for freshmen through the new Physics 5 series, modernization of machine shops, and other initiatives that make our programs competitive and rewarding.

Through BP²: Access, our elite-level partnership, **specify exactly where you'd like your contributions to go:** faculty research or department priorities.

At the same time, invest in your own future. Members enjoy a concierge service to match company interests with faculty expertise. You'll be invited to

Physics at Berkeley: Department At-A-Glance

A top-ranked department in a world-class university. Distinguished professors and their students lead the way in scientific research, challenge the fundamental laws of physics, and advance tomorrow's ideas and discoveries.

Research Centers

Berkeley Center for Cosmological Physics
 Berkeley Center for Theoretical Physics
 Berkeley Experimental Particle Physics Center
 Center for Quantum Coherent Science

Fields of Study

Astrophysics and Cosmology
 Atomic, Molecular, and Optical Physics
 Biophysics
 Condensed Matter Physics and Materials Science
 Nuclear Physics
 Particle Physics
 Plasma and Nonlinear Dynamics

Physics Faculty

Endowed chairs: **12**
 Active Nobel Laureates: **3**
 Emeritus faculty: **38**

65
Active Faculty

Physics Students

320
Undergraduate Students

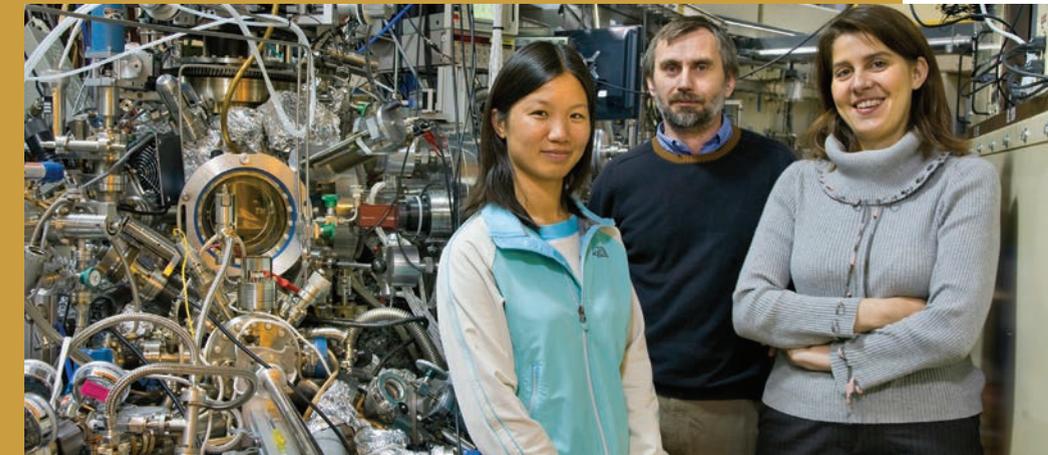

274
Graduate Students

Women students: **22%**
 International students: **20%**
 Departmental Scholarship recipients: **40+**

Undergraduates involved in research projects: **100+**

Student Organizations

Career Development Initiative for Physical Sciences
 Compass Project
 IGenSpectrum
 Society for Women in the Physical Sciences
 Physics Graduate Student Association
 Society for Physics Students

private dinners with distinguished physicists following the Segrè and Oppenheimer lectures. We also offer naming opportunities at negotiated levels.

BP²: Access companies electing to **support department priorities** will receive all benefits of the Recruit program: on-campus recruiting sessions, interviews, and office hours; job announcements; and invitations to poster sessions and career-development workshops.

Alternatively, Access members who **support faculty research** may fund a research topic with a choice of one research center or one faculty member in Astrophysics, Particle Physics, Quantum Physics, or Biophysics, and more with his or her consent. This includes first right to review progress of research, rather than the benefits of the Recruit program. For a detailed list of research areas, please see: physics.berkeley.edu/research-faculty

BP²: Access Annual Membership Fee

\$55,000 and up
